Instructions to Vendors:

Dear Valued Vendor:

Product safety is a top priority at Taymark. We, with the assistance of Intertek, a CPSC-accredited third-party testing partner or lab, have identified the various rules and regulations as well as the necessary test requirements that we need to meet in our partnership to sell products in the United States. This has been assembled into our required Test Protocol. Each product that is supplied to us must comply with this Test Protocol and any required associated test protocol(s) identified within it.

You are required by the US Law to verify the products you provide to Taymark (or any other customer marketing to children in the USA) meet the required safety standards. Likewise, Taymark is required by US Law to assure that we have documentation to confirm that you have verified that your products meet the applicable safety standards. Once you have verified that the product(s) you have supplied to us conforms to the corresponding Test Protocol(s), and the testing was conducted within the past twelve (12) months, we ask that the appropriate representative from your company provide Taymark with the proper General Certificate of Conformity ("GCC") and the corresponding documentation that you used to support the GCC, including, where applicable and required, the CPSC-accredited third-party test data. For an example of an acceptable GCC, please go to <http://www.cpsc.gov/about/cpsia/faq/elecfaq.pdf>.

Key

†: Any element on the attached form with the following symbol ("†") is a Mandatory Requirement to which the product(s) or components of product(s) you supply to Taymark must conform. You must perform the associated test(s) and provide Taymark with the test data to support the fact that the test(s) was (were) conducted and that the product(s) or components of product(s) meets the described requirements. You are responsible for conducting the mandatory testing, and you are responsible for any expenses incurred as a result of conducting the test(s) (including, without limitation, the costs and expenses associated with providing any samples, testing, reporting, and preparing the General Certificate of Conformity).

: The symbol ("") on the attached form indicates that additional charges may apply. Taymark's preferred Accredited Third-Party Testing Facility is Intertek. If you choose to use Intertek to conduct the mandatory testing, please reference Taymark and Taylor Corporation when submitting your requests for testing to Intertek as you may be able to take advantage of Taymark and Taylor Corporation's volume discount. You may contact Intertek for a price quote and any additional information they might need in order to conduct the required testing.

Additional Accredited Third-Party Testing facilities can be found at <http://www.cpsc.gov/cgi-bin/labsearch/>.

Note:

Where there is no applicable US standard, Intertek has chosen the most relevant International Standard to assess the product safety and performance. For undated references, the latest edition of the referenced document (including any amendments) applies.

TEST SPECIFICATION

Product:	Face Stickers and Temporary Tattoos		
Scope:	Stickers and temporary tattoos to be applied to skin, including eyeblacks and cheek cheers. For adult and children.	Protocol No.	TYCP-09045-US
		Version	1.0
		Issue Date	12 Oct, 2011
		Prepared by	Intertek HK - TFH
		Page	2 of 4

Attribute	Test Method / Standard	Requirement / Limit	Result
Supplemental Protocol(s)			
*†CA Prop 65 (mandatory in state California)	Intertek Protocol	Consent Judgment of related court cases based on California Proposition 65. See http://oehha.ca.gov/prop65.html

* Soluble Heavy Metal Content in Substrates	EN71: Part 3 / Acid Extraction, ICP analysis (scope widen)	<p>All accessible substrates, before and after use and abuse testing, shall comply with the following limits: Antimony (Sb) 60 mg/kg, Arsenic (As) 25 mg/kg, Barium (Ba) 1000 mg/kg, Cadmium (Cd) 75 mg/kg, Chromium (Cr) 60 mg/kg, Lead (Pb) 90 mg/kg, Mercury (Hg) 60 mg/kg, Selenium (Se) 500 mg/kg.</p> <p>Test method and reporting rules (e.g., application of correction factor) from EN71:3 are applied. Report actual results or include data table within report. No compositing.</p> <p>Excludes: Ride-on /bicycle wheels, tubes and tires; stroller wheels, tubes and tires; writing instrument nibs; car seat buckles; keyed locks and keys.</p> <p>Until legislation is enacted, this is a client requirement.</p>	
Physical Characteristic			
Dimensions	ITS-M0059	Report dimensions; shall meet label claims (if applicable).	
Weight	ITS-M0059	Report weight; shall meet label claims (if applicable).	
Color	Visual Check	Report actual; shall meet label claims (if applicable).	
Number of Stickers	Count	Shall comply with claims (-0% / +5%).	
Construction & Workmanship			
Sharp Points / Edges	16 CFR 1500.48 / 1500.49	Shall have no sharp points / edges before or after abuse testing.	
Defects	Visual Check	Shall have no discernible surface degradation, including crazing, shivering, bubbles, cracks, stains, deformations, chips, fractures, heavy lines, waves, shear marks, scratches, scuff marks, indentations, or blisters.	
Workmanship	Visual Check	Shall have no components missing, malformed, and/or fractured.	
Print Quality	ITS-M0060	No major defects (uniform print).	
Performance Test			
Functionality	ITS-M0061	Shall function as intended as received.	
Comfort	ITS-M0061	Shall not have features present likely to cause discomfort or irritation when sticking on skin.	
Actual Use Adhesion Performance #	ITS-M0061	<p>Should provide good adherence to intended surface. Perimeter of product shall not curl or release after 4 hours at ambient room temperature, when applied to a suitable test surface. Besides, no residue glue is left on the test surface after testing.</p> <p>NOTE: Indicate material type used in test.</p>
